

### Letter of Reference

It has been a great pleasure for us (Central Developments) to have worked on numerous projects with MLE Electrical over the past 10 years. MLE Electrical are one of our Groups preferred electrical sub-contractors.

Over the period 2013/2014 construction began on the Featherbrooke Retirement Village in Krugersdorp. After a successful tender submission, MLE Electrical was once again appointed to work with us as the electrical contractor.

The Featherbrooke Retirement Village project consists of a total of 498 units which included a service centre, high density flats (blocks A through to E) and low density free standing units.

From the outset, we were unable to fault MLE Electrical with their project programming which was managed to near perfection and although multiple challenges emerged on a regular basis, MLE Electrical completed the requested tasks within the time period available to them. MLE Electrical consistently reached the target dates required for the project and always performed within the allocated budget. On numerous occasions, MLE Electrical has provided us as clients with savings on the budget by being pro-active in design ideas and pre-empting price escalations on material.

MLE Electrical's standard of work is of such a high quality that they have since been appointed by Central Developments for a further two Service Centre projects, namely, Olivedale and Country Life Retirement Villages.

MLE Electrical have proven that they are the leaders in their field on more than one occasion and with their high standards of work, skilled and competent personnel and their flawless management structure our confidence in this company is renewed with the completion of each and every project.

MLE Electrical consistently perform to exceptional standards producing work of the highest quality and they come highly recommended by ourselves.

Please do not hesitate to contact me if you require any further information or have questions relating to this project.

Sincerely

Mr. Gerrit Brandow  
Director
